

TASC Practice Question

Maxine has a mathematical rule that she uses when it comes to love. Maxine says that, in her opinion, when it comes to the age difference between two people in a romantic relationship, the younger person should never be younger than half the older person's age plus seven more years.

Maxine writes this rule: $y \geq \frac{1}{2}x + 7$. Which of the graphs below shows this inequality correctly?

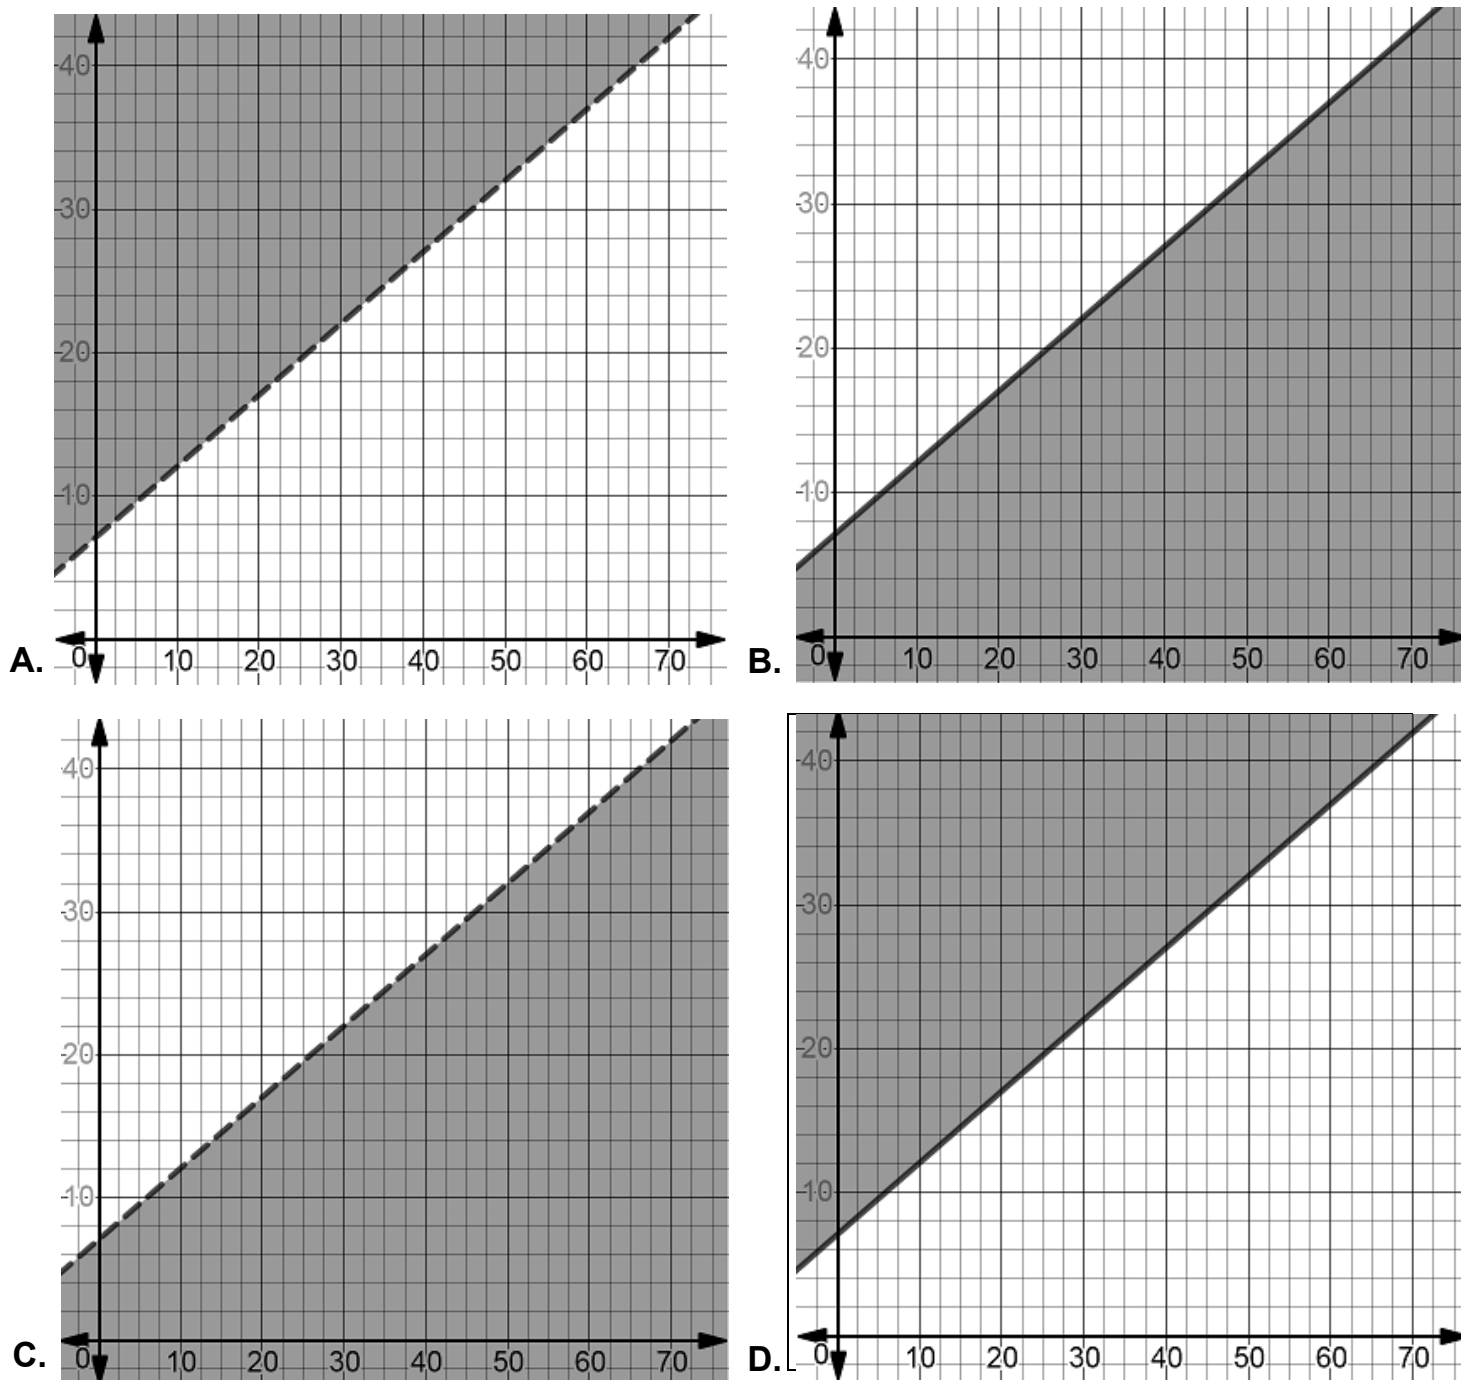

Why did you choose this answer?
